

Emerson's Mexico City Certified Product Service Center: Calibration and Repair of CSI 2130, CSI 2140, and CSI 5200 Products

Emerson proudly announces the addition of new Certified Product Service Centers around the globe to offer better localized support for customers. These worldwide centers perform calibrations, updates and repairs on CSI products to dramatically increase service levels for Emerson customers. A new Certified Product Service Center location is now open in your area:

Reliability Solutions Calibration and Repair Center

Calle 10 No 145, Colonia San Pedro de los Pinos
Delegación Alvaro Obregón, México D.F.
C.P. 01180, México

For Repair Needs and RMA Registration:

Email Address: WWCS.CustServ@AP.EmersonProcess.com

For further questions, contact your local Emerson office:

Email Address: RSSC.Mexico@Emerson.com
Phone Number: +52 5558095300

Our Certified Product Service Centers have the specific expertise, tools, original equipment manufacturer parts and quality assurance processes in place to ensure the service work meets Emerson's highest level of quality and customer satisfaction, with the added benefits of reduced shipping costs and quick turn-around time.

- All centers undergo extensive training and are constantly kept aware of any hardware, firmware and software updates or issues. Centers adhere to Emerson's standard Machinery Health Management pricing and consistent service levels, and they have full support from the factory.

- Emerson certified technicians and trained professionals check for and repair all problematic issues.
- Calibrations require certified firmware tool unique for every specific CSI firmware version — only the Emerson Certified Product Service Centers have this exclusive calibration firmware capability.

Contact the Mexico's City Certified Product Service Center for all your calibration and repair needs.
