

## Gain Flexible Operational Data from Remote Assets

### DeltaV™ SaaS SCADA

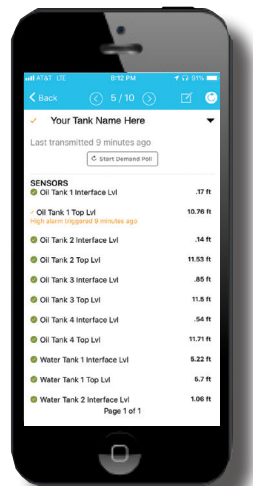

Effortlessly integrate data from any source to rapidly enable better business decisions while increasing production, profits and sustainability.

# Rapidly realize your production potential with analytics, machine learning & mobility

Anywhere, anytime access to your operational data to increase safety, uptime and profitability. Clear and easy to understand real-time data provides visibility and minimizes manual operational tasks while driving robust safety processes.

User-friendly, accurate cloud data is available only to authorized users to better communicate across your organization; from remote locations to the main office, and everywhere in-between.

- Unlimited authorized user, role-based access
- Anytime, anywhere access with mobile
- Optimize operations with alarms
- Effortless, always up to date software
- Easily import and export data to third party platforms
- 24/7 support and complete training, workshops & courses

# Cloud-Native to Enable Your People to Focus on your business, not your platform

DeltaV™ SaaS SCADA proudly serves for the following industries:

Oil & Gas Production

Quickly gain visibility & control of remotely located operations

Gas Distribution

Protect people, assets and equipment with remote monitoring

City Utilities

Increase safety with remote monitoring

Water Utilities

Actionable data to monitor your operations anytime, anywhere

Packaging

Unlock the most value and return for reliable operations

---

## Monitor & control assets in the field – anytime, anywhere.

# Software developed to triumph over your challenges

## **DeltaV SaaS SCADA**

Up-to-the-minute accurate data from your site all in a single source to actively see the information you decide is relevant to each person or role within your organization.

- Data trending, default & reporting
- 3rd party access & data exchange
- Continuous polling & optimization
- Alarm Management with call-outs
- Manage permissions & work-flows

## **DeltaV SaaS SCADA Field Capture**

Capture daily production data in one, user-friendly platform. Gather and analyze manually entered, imported or updated data from various locations based on role.

- Easily view, edit & share data
- Analyze & export based on role
- Custom report engine
- Custom sort & display
- Advanced reporting

## **DeltaV SaaS SCADA Mobile**

Enter, monitor and manage operational data anytime, anywhere with our mobile app. Available in Google Play as well as the App Store for all your mobile device needs.

- Input data & issue commands
- Prioritize work while in the field
- Eliminate field paperwork
- Push data to other systems or reports
- Immediately update systems

## **DeltaV SaaS SCADA Asset Protect**

Streamline work for fixed assets, preventative maintenance & HSE. Control of equipment deployed, with documentation and records for compliance audits. Easy cloud-based fixed asset management.

- Track moves & location
- Pro-actively schedule work orders
- Set reminder & escalations
- Manage inventory & licenses
- Track incidents, specs & manuals
